Browser	Google Chrome (up to date version) or Mozilla Firefox (up to date version)
USB	1 free USB 2.0 or 3.0 port
Sound	Working sound card

Note regarding Windows XP:

As of April 9, 2014, support and updates for Windows XP ended and Microsoft stated “your computer will still work but it might become more vulnerable to security risks and viruses [...] Also, as more software and hardware manufacturers continue to optimise for more recent versions of Windows, you can expect to encounter more apps and devices that do not work with Windows XP”.

Take 1 will not be able to help support any errors caused by your operating system, or external factors that may affect our software’s performance.
